

March 29-30, 2024

**Department of Chemistry,
JECRC University, Jaipur**

INDUSTRY-ACADEMIA KNOWLEDGE SHARING SESSION

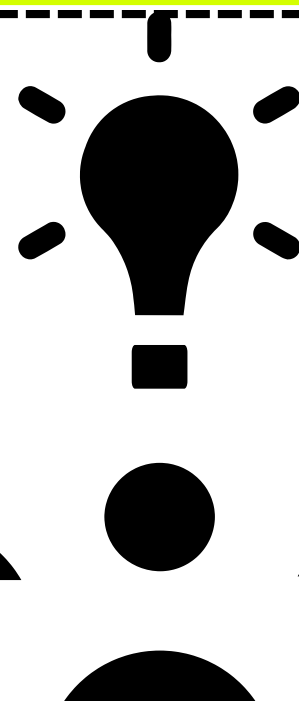

Objective: Recently industries have been more concerned to Environment, Sustainability and Governance (ESG) to address issues such as, climate change, energy usage and efficiency, waste reduction, biodiversity laws, green house gas emission and carbon footprint reduction. ESG strategy is now an essential component of industries for achieving UN's sustainable development goals. Moreover, industry -academia collaborations at higher education can create specialized talent with required skillset and training in respect of ESG. JECRC University runs 155+ Programs at UG, PG and PhD levels fostering talents in diverse disciplines. Therefore, this knowledge sharing session is aimed to discuss important advancements in the fields of energy, water and environment towards sustainability.
